Zan lives to be behind the wheel of the Twilight. Zan can make the Mule maneuver in ways it has no right to move, often to the chagrin of the Cohort. K'cht'k and Zan built the Twilight, and no other thing in the world is more important to Zan...after Ptery.

SELF-EXILED FROM HELIS

Zan grew up on the outskirts of City of the Sun, where they learned their love of open spaces and cutting-edge tech. Despite having a Chimera form combining the two primary peoples that make up the Order, their appearance drew more attention than they felt was deserved. They always felt more tolerated than welcomed, eventually leading them to leave that culture behind.
